bestselling author of geography of bliss returns with this funny illuminating chronicle of a globe spanning spiritual quest to find a faith that fits when a health scare puts him in the hospital eric weiner an agnostic by default finds himself tangling with an unexpected question posed to him by a well meaning nurse have you found your god yet the thought of it nags him and prods him and ultimately launches him on a far flung journey to do just that weiner a longtime spiritual voyeur and inveterate traveler realizes that while he has been privy to a wide range of religious practices he s never seriously considered these concepts in his own life face to face with his own mortality and spurred on by the question of what spiritual principles to impart to his young daughter he decides to correct this omission undertaking a worldwide exploration of religions and hoping to come if he can to a personal understanding of the divine the journey that results is rich in insight humor and heart willing to do anything to better understand faith and to find the god or gods that speak to him he travels to nepal where he meditates with tibetan lamas and a guy named wayne he sojourns to turkey where he whirls not so well as it turns out with sufi dervishes he heads to china where he attempts to unblock his chi to israel where he studies kabbalah sans madonna and to las vegas where he has a close encounter with raelians followers of the world s largest ufo based religion at each stop along the way weiner tackles our most pressing spiritual questions where do we come from what happens when we die how should we live our lives where do all the missing socks go with his trademark wit and warmth he leaves no stone unturned at a time when more americans than ever are choosing a new faith and when spiritual questions loom large in the modern age man seeks god presents a perspective on religion that is sure to delight inspire and entertain

the acclaimed author of ignore everybody is back with more irreverent wisdom wit and original cartoons it has never been easier to make a great living doing what you love but to make it happen first you need an evil plan everybody needs to get away from lousy bosses from boring dead end jobs that they hate and actually start doing something they love something that matters life is short hugh macleod freud once said that in order to be truly happy people need two things the capacity to work and the capacity to love evil plans is about being able to do both at the same time the sometimes unfortunate side effect is that others will hate you for it macleod s insights are brash wise and often funny

freedom libraries the untold story of libraries for african americans in the south as the civil rights movement exploded across the united states the media of the time was able to show the rest of the world images of horrific racial violence and while some of the bravest

people of the 20th century risked their lives for the right to simply order a cheeseburger ride a bus or use a clean water fountain there was another virtually unheard of struggle this one for the right to read although illegal racial segregation was strictly enforced in a number of american states and public libraries were not immune numerous libraries were desegregated on paper only there would be no cards given to african americans no books for them read and no furniture for them to use it was these exact conditions that helped create freedom libraries over eighty of these parallel libraries appeared in the deep south staffed by civil rights voter registration workers while the grassroots nature of the libraries meant they varied in size and quality all of them created the first encounter many african americans had with a library terror bombings and eventually murder would be visited on the freedom libraries with people giving up their lives so others could read a library book this book delves into how these libraries were the heart of the civil rights movement and the remarkable courage of the people who used them they would forever change libraries and librarianship even as they helped the greater movement change the society these libraries belonged to photographs of the libraries bring this little known part of american history to life

how filling life with play whether soccer or lawn mowing counting sheep or tossing angry birds forges a new path for creativity and joy in our impatient age life is boring filled with meetings and traffic errands and emails nothing we d ever call fun but what if we ve gotten fun wrong in play anything visionary game designer and philosopher ian bogost shows how we can overcome our daily anxiety transforming the boring ordinary world around us into one of endless playful possibilities the key to this playful mindset lies in discovering the secret truth of fun and games play anything reveals that games appeal to us not because they are fun but because they set limitations soccer wouldn t be soccer if it wasn t composed of two teams of eleven players using only their feet heads and torsos to get a ball into a goal tetris wouldn t be tetris without falling pieces in characteristic shapes such rules seem needless arbitrary and difficult yet it is the

limitations that make games enjoyable just like it is the hard things in life that give it meaning play is what happens when we accept these limitations narrow our focus and consequently have fun which is also how to live a good life manipulating a soccer ball into a goal is no different than treating ordinary circumstances like grocery shopping lawn mowing and making powerpoints as sources for meaning and joy we can play anything by filling our days with attention and discipline devotion and love for the world as it really is beyond our desires and fears ranging from internet culture to moral philosophy ancient poetry to modern consumerism bogost shows us how today's chaotic world can only be tamed and enjoyed when we first impose boundaries on ourselves
